

Prince Jonathan

Full Stack Web Developer | Mobile App Developer | Deep Learning Enthusiast

Professional Summary:

Highly skilled and results-driven Full Stack Web Developer with 7 years of hands-on experience in creating dynamic and responsive web applications. Proficient in JavaScript and TypeScript, with expertise in popular frameworks such as React, Next.js, Svelte, and SvelteKit. Adept at leveraging Supabase and Pocketbase for efficient backend development. Well-versed in mobile app development using Flutter and Dart, ensuring cross-platform functionality and optimal user experiences.

Technical Proficiency:

- Frontend Development: JavaScript, TypeScript, React, Next.js, Svelte, SvelteKit
- Backend Development: Supabase, Pocketbase
- Mobile App Development: Flutter, Dart
- Deep Learning: Python, TensorFlow, PyTorch

Key Achievements:

-successfully build a mobile application using flutter and custom deep learning model that I trained with pytorch, python, yolov5 to detect plant disease in realtime using the device camera.

- Successfully delivered a diverse range of web applications, showcasing a keen eye for user-centric design and seamless functionality.
- Developed cross-platform mobile applications using Flutter, ensuring a consistent and engaging user experience across iOS and Android platforms.
- Proficient in training and implementing deep learning models for classification and detection using Python, TensorFlow, and PyTorch.

Education:

Bachelor of Science in Computer Engineering

*Enugu State University Of Science And Technology, 2024

Skills:

- Frontend and Backend Development
- Mobile App Development (Flutter, Dart)
- Deep Learning and Neural Networks
- Project Management and Collaboration
- User-Centric Design
- Problem-Solving and Analytical Thinking
